

Higher Degree by Research Student Policy

1 Purpose

To outline the principles which describe the University's approach to developing and implementing Higher Degree by Research (HDR) programs and Research training.

2 Scope

This policy applies to HDR programs. This policy does not apply to Coursework Programs, Honorary Doctorates or Higher Doctorates.

3 Policy Statement

The University establishes standards for HDR programs and Research training through this policy. For further details on expected standards of conduct, please refer to the Research Code of Conduct (and related procedures).

This policy aligns with:

- *Higher Education Standards Framework (Threshold Standards) 2021: Standard 4.2 Research Training*

4 Principles

The University will offer HDR programs that:

1. meet the standards specified in the Higher Education Standards Framework;
2. provide high-quality Research training to HDR Students;
3. promote a Research culture of excellence, integrity, professionalism and mutual respect;
4. align with the University's Research objectives; and
5. develop HDR Student capabilities that will equip them for individual professional and career paths.

Students are admitted to Research training only where the training can be provided in a supervisory and study environment of Research activity or other creative endeavour, inquiry and scholarship, and the supervision and resources required for their project are readily available and supported by the University.

The University reserves the right to refuse Admission where required resources are not available.

The University will award HDRs in accordance with the practice and terminology used in the Australian higher education system.

Intellectual Property created by HDR Students will be managed in accordance with the Intellectual Property Policy and subordinate Procedures.

Research training is guided by an institutional Research training framework that is designed to achieve:

1. definition and recognition of the rights and responsibilities of HDR Students and supervisors;
2. induction and orientation of HDR Students and supervisors to their roles;
3. monitoring of the progress of HDR Students;
4. assessment and examination of HDR Students' work;
5. independence of examiners;
6. presentation and communication of Research Outputs by HDR Students;
7. resolution of disputes; and
8. opportunities for HDR Students to engage in collaborative Research with end-users of the Research.

Intellectual Property

The result of an individual's intellectual endeavours that is capable of being protected by legal rights. Examples include, but are not limited to: inventions and discoveries in relation to new products and processes that can be protected by a patent; Copyright in Teaching Materials; other works in which Copyright subsists including literary works (including computer programs), dramatic works, musical works, artistic works, films, sound recordings, broadcasts, published editions and certain types of performances; industrial designs, which protect the shape, configuration, pattern or ornamentation of a product, that is, what gives a product a unique appearance; plant breeders' rights, which protect varieties of plants and trees; trademarks, which protect the branding, reputation and goodwill of products and services; circuit layout rights, which protect the layout plans or designs of electronic components in integrated circuits, computer chips, or semi-conductors used in personal computers and computer-reliant equipment; and trade secrets and know-how, that is, knowledge about products, processes, and inventions and discoveries: prior to the time they are incorporated into a publication or become the subject of a patent or design application; or which are never made the subject of an application for Intellectual Property registration.

Research

Research is the creation of new knowledge and/or the use of existing knowledge in a new and creative way to generate new concepts, methodologies, inventions and understandings. This could include the synthesis and analysis of previous research to the extent that it is new and creative.

Research Output

An output is an outcome of research and can take many forms. Research Outputs must meet the definition of Research.

Scholarship

A Scholarship is Student recognition, typically based on Academic Merit, which provides a financial grant to a Student to undertake or complete a program of study at the University over a nominated period of time, in accordance with the selection criteria. A Scholarship may take the form of periodic payments to the Student or a reduction in specified costs, such as tuition fees for the duration of the Scholarship.

Student

	<p>A person who is enrolled in a UniSQ Upskill Course or who is admitted to an Award Program or Non-Award Program offered by the University and is: currently enrolled in one or more Courses or study units; or not currently enrolled but is on an approved Leave of Absence or whose admission has not been cancelled.</p> <p>University</p> <p>The term 'University' or 'UniSQ' means the University of Southern Queensland.</p>
