

Equivalence of Experience and Expertise with Academic Qualification Levels Procedure

1 Purpose

To ensure that academic Employees with responsibilities for academic oversight and those with teaching and supervisory roles in Coursework Programs are appropriately qualified in the relevant discipline.

2 Scope

This Procedure applies to all current and prospective academic Employees, including casual and fixed-term academic Employees, with academic oversight, teaching and supervisory responsibilities in Coursework Programs and Courses, including Coursework Programs and Courses delivered by a Third Party Provider.

This Procedure does not apply to professional Employees, academic title holders, academic visitors and guest presenters, and professional placements or other forms of work integrated learning. Exceptions to these requirements may only be approved by the Deputy Vice-Chancellor (Academic Affairs) and decisions must be documented and academically defensible.

Academic Employees supervising Higher Degree by Research (HDR) Students are subject to the Higher Degree by Research Supervision Procedure.

3 Procedure Overview

This Procedure sets out the minimum academic qualifications or combination of academic qualifications, experience and expertise required to undertake academic oversight, teaching or supervisory roles and the process by which the University assesses and records that academic Employees meet the minimum requirements.

For the purposes of this Procedure, experience and expertise refer to experience and expertise obtained through the practice of a profession, including teaching experience, scholarship and professional practice, and from which the professional competency, knowledge, skills and Learning Outcomes achieved can be assessed.

This Procedure aligns with:

- *Higher Education Standards Framework (Threshold Standards) 2021* (HESF): Standard 3.2 Staffing.

4 Procedures

4.1 Minimum criteria

Academic Employees with academic oversight, teaching or supervisory responsibilities in Coursework Programs, including Course Coordinator, Program Director or other learning and teaching leadership role, must have:

- a qualification in a relevant discipline at least one Australian Qualifications Framework (AQF) level higher than the program being taught; or
- a qualification in a relevant discipline at least equivalent to the AQF level of the program being taught plus equivalent academic or professional or practice-based experience and expertise, supported by appropriate evidence.

Equivalence on a combination of formal qualifications and experience and expertise will be granted for one AQF level increment only and must be current and relevant to the subject matter being taught.

The minimum requirements for equivalence of experience and expertise with academic qualification levels are detailed in Table 1.

Where professional accreditation bodies set more stringent requirements for academic Employee qualifications and professional engagement, these must be satisfied in addition to the requirements in Table 1.

Table 1: Equivalence with Academic Qualification Levels Matrix

| AQF Level of taught program | Minimum academic qualification level required | Minimum requirements to demonstrate equivalence of experience and expertise with the minimum academic qualification level |

Schools and Colleges may develop guidelines consistent with this Procedure that provide a discipline specific approach to assessing whether claims of equivalency meet HESF standards. These guidelines must be approved by the Academic Affairs Learning and Teaching Quality Committee, or College equivalent, and reported to Education Committee.

4.2 Applying for equivalence

Applications for equivalence, including from academic Employees teaching through a Third Party Provider, are submitted via the [ServiceHub](#) to the Head of School/College for review.

The Head of School/College will provide a recommendation to a panel convened by the Associate Dean (Learning and Teaching) and including two senior academic Employees, one of whom is from a relevant discipline. The panel will consider the supporting evidence and recommendation and approve or not approve the equivalence of qualification.

4.2.1 Verifiable evidence

Verifiable evidence to be considered when assessing the professional experience of an individual may include but is not limited to:

- relevant workplace or practice-based experiences
- teaching experience including teaching at lower AQF levels, conducting professional development seminars and giving public lectures
- testimonials, awards, or other recognition that acknowledges leadership or expertise in the discipline area
- contributions to the discipline through participation in advisory boards or professional networks
- managing significant projects relevant to the discipline area
- performing in a role that requires higher order judgement and the provision of expert advice
- leadership in the development of professional standards
- peer reviewed publications, books or reports, conference or seminar presentations in the discipline area.

4.2.2 Application outcomes

The decision of the panel will be provided to the applicant, Head of School/College, relevant People Portfolio area and, where appropriate, Third Party Provider.

Where the evidence is assessed as demonstrating equivalence, the panel will determine:

- the Field(s) of Education relevant to the applicant's experience and expertise
- time-limited requirements for participation in professional development and scholarly activities or progress towards completion of a relevant AQF+1 level program, where applicable
- the date at which the equivalence should be reviewed, normally every three years.

In the case of new academic Employees, this information and any other requirements or conditions of appointment will be detailed in the Letter of Offer.

Decisions and supporting documents will be recorded in accordance with the University's approved Records and Information Management Policy and Procedure and the Enterprise

Information Management Framework.

The Head of School/College is responsible for regular assessment of all relevant Course allocations to confirm that academic Employees with academic oversight, teaching or supervisory responsibilities meet HESF requirements, including that they are teaching in a Field of Education covered by the equivalence assessment.

4.3 Supervised Teaching

On the approval of the Head of School/College, academic Employees assessed as not fully meeting the standard for knowledge, skills, qualification or experience required for teaching may teach under the supervision of an academic Employee who meets the standard. This includes academic Employees engaged to teach specialised components of a program because of their specialised expertise but who do not meet the general requirements of the HESF.

Tutors not responsible for Course Coordination who work under the guidance of a Course Coordinator and deliver tutorial or workshop classes require qualifications to at least the same level as the program being taught, plus suitable support or supervision relevant to professional experience and appropriate teaching methods.

Ongoing monitoring of these cases will be documented in the approved University system, including a supervision plan developed in consultation with an appropriately qualified Employee and reviewed at least annually by the Head of School/College.

4.4 Complaints and Grievances

Academic Employees who are dissatisfied with an outcome or Decision made under this Procedure should follow the process outlined in the Employee Complaints Procedure.

4.5 Reporting

The Associate Dean (Learning and Teaching) is responsible for submission of an annual report to Academic Board on the outcomes of this procedure, including the effectiveness of monitoring and evaluation processes.
